

svn分支与合并

参考 <https://www.cnblogs.com/mq0036/p/3498908.html>

1、拉分支

2、分支同步主分支

Select the merge type

Specify the type of merge to perform

Merge input
<input checked="" type="radio"/> Merge a range of revisions
<input type="radio"/> Reintegrate a branch
<input type="radio"/> Change-set based merge
<input type="radio"/> Merge two different trees
<input type="radio"/> Manually record merge information (block one or more revisions)
<input type="radio"/> Manually remove merge information (unblock one or more revisions)
Merge a range of revisions

Select the merge source

Specify the location containing the items to merge

Merge from:	<input type="text" value="http://dws.sino-life.com/svn4/sinopower/branches/int/CARPCIP_0/CARPCIP/int_0.1.0"/>
Revisions	
<input checked="" type="radio"/> All eligible revisions	
<input type="radio"/> Select revisions on next page	

3、主分支合并分支

Select the merge type

Specify the type of merge to perform

Merge input
<input type="radio"/> Merge a range of revisions
<input checked="" type="radio"/> Reintegrate a branch
<input type="radio"/> Change-set based merge
<input type="radio"/> Merge two different trees
<input type="radio"/> Manually record merge information (block one or more revisions)
<input type="radio"/> Manually remove merge information (unblock one or more revisions)
Reintegrate a branch
