1、部分菜单url命名更改，原打印清单publicPrint ->printList,具体登录

http://192.168.13.40:8000/#/login admin/admin ,结合代码查看

2、outside模块删除，合并到chinacri-b2b-car-service中

3、gateway 融合，采用chinacri-base-gateway

4、公共代码请迁移至 PubDocumentPrint***

开发代码模块

业务代码和原outside融合

chinacri-b2b-car git@192.168.26.51:chinacri-b2b/chinacri-b2b-car.git

前端

chinacri-b2b-web git@192.168.26.51:chinacri-b2b/chinacri-b2b-web.git

路由

chinacri-base-gateway git@192.168.26.51:chinacri-base/chinacri-base-gateway.git

本地调试配置：内部调用dubbo(RPC)，外部调用FeignClient(restful)
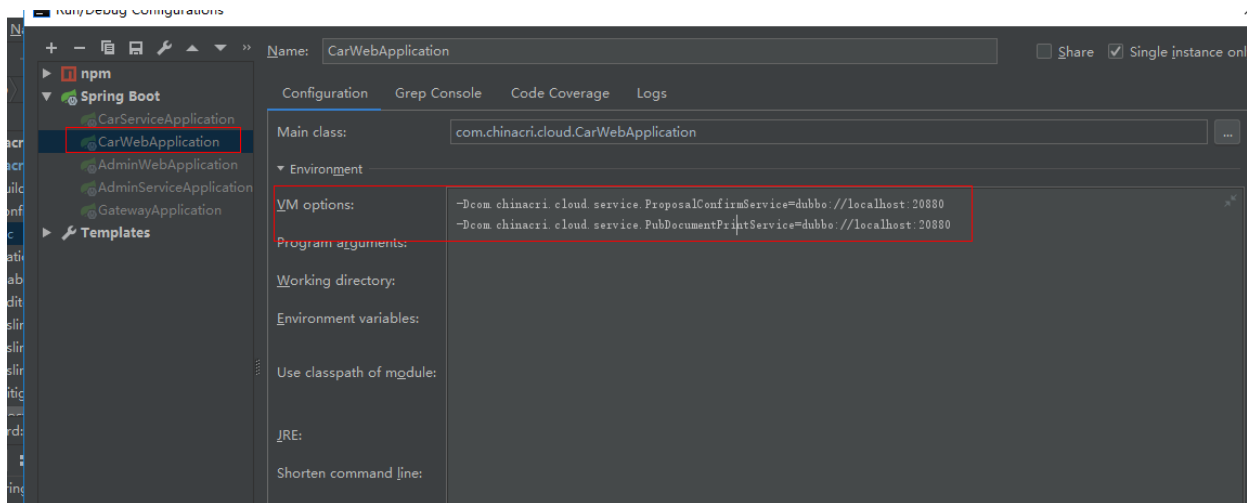

配置参考：外部调用FeignClient(restful)

b2b-car-web.ribbon.NIWSServerListClassName

com.chinacri.cloud.custom.netflix.loadbalancer.CloudConfigurationBasedServerList

b2b-car-web.ribbon.listOfServers

http://localhost:8783

内部调用dubbo(RPC)

-Dcom.chinacri.cloud.service.ProposalConfirmService=dubbo://localhost:20880

-Dcom.chinacri.cloud.service.PubDocumentPrintService=dubbo://localhost:20880

菜单配置

http://192.168.13.40:8000/#/login   admin/admin
